

WMC

Wonder Mains Combo

PRODUCT DESCRIPTION

The Wonder Mains Range offers higher than standard power surge protection and includes proprietary circuitry that checks the wiring of the socket it is plugged into and simultaneously checks for a good earthing of the premises that is required for any surge protector to be effective. Status Indicators:

If the tick light is **ON**, then the surge protector is working and okay, but if it is **OFF**, then surge protector needs to be replaced

WARNING! When the cross light is **ON**, the the wiring of the wall socket the surge protector is plugged into is faulty
